

VARIO POOL

THE REAL DEPTH INVESTMENT

PRODUCT SHEET
ANGELEYE ANTI-DROWNING SYSTEM FOR POOLS

PRODUCT SHEET

ANGELEYE ANTI-DROWING SYSTEM

PRODUCT DESCRIPTION

An extra eye for the lifeguard: The growing popularity of fitness and recreation centres as well as swimming and leisure centres has led to the creation of many aquatic parks and high-quality private and public pools that attract increasingly larger number of users. The diversity of visitors forces the managers to organize their service offerings accordingly, upholding increasingly higher quality standards while paying special attention to guarantee their clients a safe service.

It is in fact of the essence to give swimmers certainty and the awareness of being in a facility where the safety level is high and one's safeness is constantly monitored as far as the greatest danger: drowning.

WORK IN PROGRESS

The above is based on a standard version. This product is also available in other dimensions on request. Please contact us via the contact details below. You can reach us every working day via +31 (0) 226 333 000 or via info@variopool.nl

SAFETY FIRST

AngleEye is watching the swimmers. To protect the swimmers the law provides supervision with the help of qualified personnel monitoring the pools. This activity is somewhat difficult, as the bottom of the pool is difficult to see (because reflected light, waves, and floating swimmers do not always permit a full view of the activities at the bottom of the pool). Distraction is also a factor. To ensure that swimmers are safe and to provide the bathing facility with the highest safety level possible, we proudly introduce AngelEye LifeGuard. AngelEye is a safety system specifically designed to control the activity of the swimmers in the swimming facilities; the system can evaluate dangerous situations and let the lifeguards know that there is an unsafe situation in progress.

Focussed assistance. This is accomplished by means of hand-held devices in a quick and effective manner, thus providing immediate and focused assistance. Thanks to the AngelEye new visual technology, a new lifeguard monitors all the activities at the pool, with no distractions.

Variopool installed the system in several swimming pools. If you may have any questions regarding this product please feel free to contact one of our account managers. You can contact us at any workday via +31 (0)226 333 000 or via info@variopool.nl
